Read the information below. Then use the weather map and symbols to complete the "Which City" at the bottom of the page.

Weather Maps are a tool used by meteorologists to forecast the weather. Using symbols, colors, and numbers, weather maps show important information that a meteorologist can use to make a weather prediction. A current weather map can show current temperatures, cloud cover, rain or snow showers, High and Low pressures and weather fronts. Different symbols are used on weather maps to make the information easier to understand and interpret.

Complete the "Which City" questions below:
